

I am a Caring Thinker!

I like listen carefully to what is being said. I am starting to agree and disagree with ideas. I show respect for the speaker by making eye contact and that them for their ideas.. I show care for other people and persevere with my thinking and concentrate on discussions.

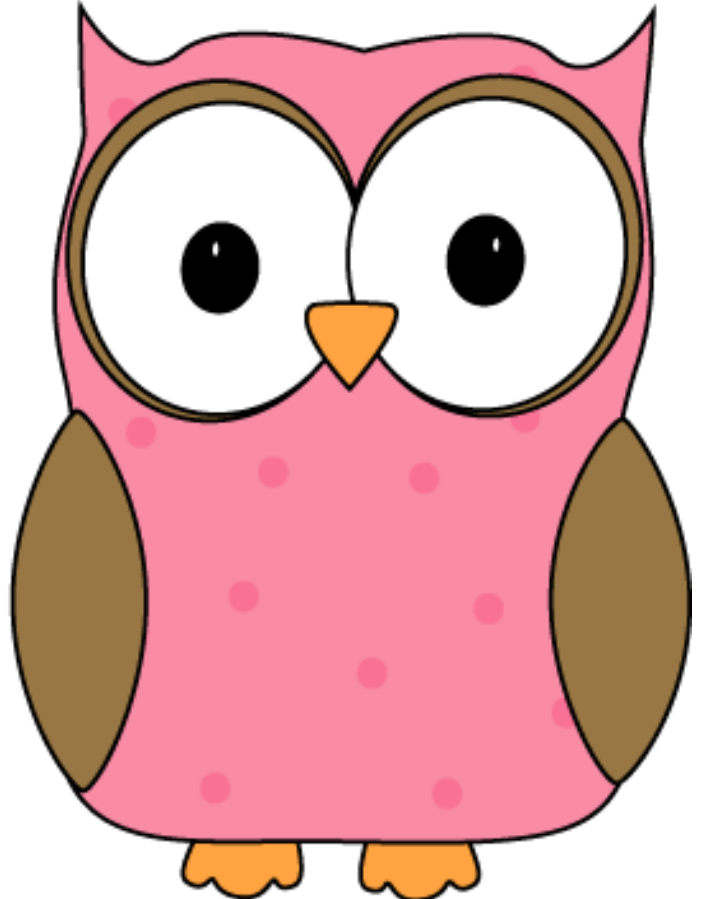

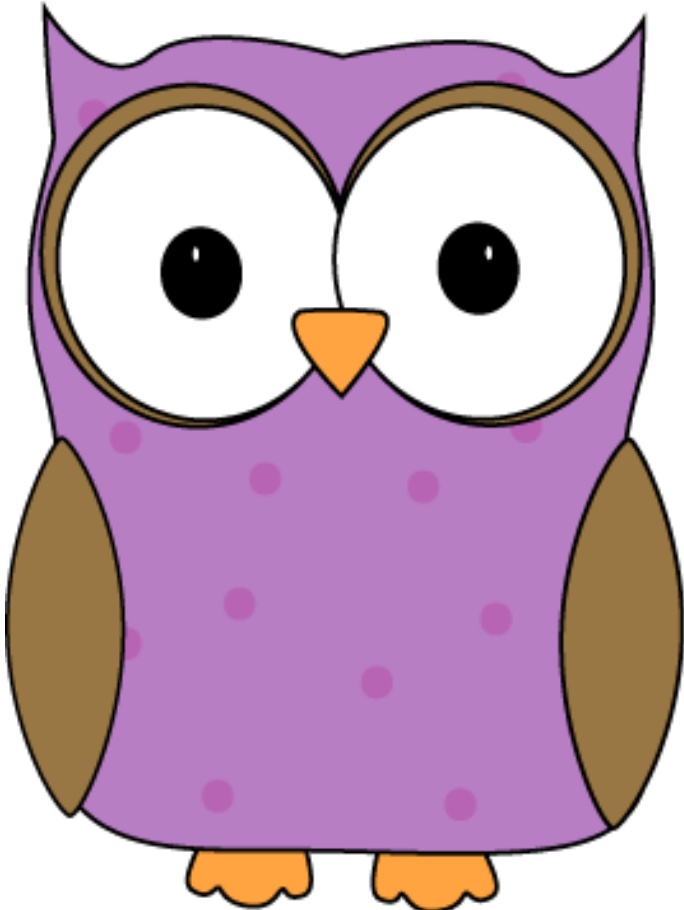

Caring

We are the Collaborative Thinkers!

We are keen to share our ideas or opinions even if they are different to our friends. We encourage others to share their ideas by smiling and thanking others for their contributions. We like to give everyone the chance to talk. We respond in a friendly way to ideas different to our own. We think about the ideas of others and link these to our own.

Collaborative Carl and Carla

Creative Claude

I am a Creative Thinker!

I love to give examples to support my ideas and ask 'what if...?' questions. I can think of different answers and ideas to the same question. I can also make links between ideas and reasons. I can listen to different ideas.

I am a Critical Thinker!

I enjoy asking 'big' questions and giving good reasons for ideas. I love to identify similarities and differences. I think about our discussion and know about big ideas.

Critical
